TOPIC : SMART FARMER-IOT ENABLED SMART FARMING APPLICATION

Python idle:

The screenshot displays the Python IDLE 3.11.0 environment. The left pane shows a Python script with the following code:

```
a=82
b=89
if a>80:
    print("High temperature")
    if b>90:
        print("Hazard")
    else:
        print("High temperature")
```

The right pane shows the IDLE Shell with the following output:

```
Python 3.11.0 (main, Oct 24 2022, 18:26:48) [MSC v.1933 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license()" for more information.
>>>
= RESTART: C:/Users/ADMIN/AppData/Local/Programs/Python/Python311/smart farming using iot.py
High temperature
High temperature
>>>
```

The status bar at the bottom right indicates "Ln: 7 Col: 0".
